Campus Expansion

From New Roots to New Growth:

With your sowing over the past ten years, we have dug New Roots on our land and established a firm, solid foundation for our girls and staff involved. Now, we are ready for new growth! The need to expand and help more girls is continually springing up with our wait list. For the past ten years, we've only had a maximum capacity of 16 girls at once, and due to constant requests for a place of safety, we need to double it. So, from New Roots to New Growth, help us multiply our reach, double our capacity, and get these girls off the wait list and into our family by building a home this Christmas. Our restoration homes give the girls the most precious gift possible: their childhood back. While it will cost a total of \$67,000 to build one home, there is no price for a childhood. Please help us grow. This is our Christmas wish.

Hosea's Heart

Christmas Catalog

"Most of our girls grow up being told they aren't worth it, and their families were not there to give them hope for the future. Being rejected by your own family is the first of many weapons that destroys a child's life. Most group homes are there for shelter and providing meals for the children. But Hosea's Heart has been so much more for us. It is not just a safe home that provides essential living, we are a family. We do small things together like eating dinner and big things like being there for each other as sisters. There is support to work through emotional and spiritual direction, and we have 24-hour supervision from the house mothers to make it more family-like setting. Each girl gets the chance to experience genuine love for each other. This gives us hope. As a Hosea's Heart graduate, the most important thing that I learned is in Jeremiah 29:11 "For I have the plans I have for you, plans for welfare and not for evil, to give you a future and hope." I may come from a family that is broken, but God had a better plan for my life. To give me a family with genuine love and feel safe at home."

-Ayanda, Hosea's Heart Graduate
